

5th INDIA CYBER SECURITY MISSION TO ISRAEL

Cyber Week is an annual cybersecurity conference held at Tel Aviv University in Israel, with Cyber Week 2019 running from June 23rd to June 27th June, 2019. It offers a unique gathering of cybersecurity experts which brings together industry leaders, startups, investors, academics, diplomats, and other government officials.

Coinciding with the Cyber Week, Confederation of Indian Industry (CII) has been organising an Annual Cyber Security Mission to Israel since 2015. This year, CII is organising the **5th India Cyber Security Mission to Israel from June 23rd to June 27th June, 2019** with the objective to forge techno-business partnerships between Indian and Israeli industry, academic and research institutions in the areas of cyber security.

CII in partnership with Tel Aviv University would also be organising a separate **Indo-Israel Roundtable on June 23rd, 2019 (tentatively)**, where Israeli counterparts from the similar stakeholder community would be present to explore partnerships. The India specific roundtable will focus on key topics such as Artificial Intelligence, Fintech, Blockchain, and Academics.

Key Takeaways

- Insight to latest trends in the field of cyber security.
- Exploring the emerging trends and technologies in cyber security such as AI and Blockchain.
- Understanding the Industry, Academia and Government perspectives on the subject.
- Exploring various mechanisms and strategies to prevent and contain cyberattacks.
- B2B meetings with Israeli counterparts.
- Focused workshops – Agenda being finalized
- Visit to 3x Cyber Companies with Cyber Response Centre.
- Interaction with Ambassador and Indian Embassy staff.
- Site Visits
